

Identity Theft Prevention and Detection and Red Flag Compliance

Policy

It is the policy of Jersey Physical Therapy to follow all federal and state laws and reporting requirements regarding identity theft. Specifically, this policy outlines how Jersey Physical Therapy will (1) identify, (2) detect and (3) respond to “Red Flags”. A “Red Flag” as defined by this policy includes a pattern, practice, or specific account or record activity that indicates possible identity theft.

It is the policy of Jersey Physical Therapy that this Identity theft prevention and detection and Red Flags Rule compliance program is approved by the practice administrator of Jersey Physical Therapy as of June 1, 2010, and that the policy is reviewed and approved no less than annually.

It is the policy of Jersey Physical Therapy that the practice administrator is assigned that responsibility of implementing and maintaining the Red Flag Rule requirements. Furthermore, it is the policy of Jersey Physical Therapy that this individual will be provided sufficient resources and authority to fulfill these responsibilities. At a minimum, it is the policy of Jersey Physical Therapy that there will be one individual or job description designation as the privacy official.

It is the policy of Jersey Physical Therapy that, pursuant to the existing HIPAA Security Rule, appropriate physical, administrative, and technical safeguards will be in place to reasonably safeguard protected health information and sensitive information related to patient identity from any intentional or unintentional use or disclosure.

It is the policy of Jersey Physical Therapy that its business associates must be contractually bound to protect sensitive patient information to the same degree set forth in this policy. It is also the policy of Jersey Physical Therapy that business associates who violate their agreement will be dealt with first by an attempt to correct the problem, and if that fails by termination of the agreement and discontinuation of services by the business associate.

It is the policy of Jersey Physical Therapy that all members of our workforce have been trained by June 1, 2010 compliance date on the policies and procedures governing compliance with the Red Flag Rule. It is also policy of Jersey Physical Therapy that new members of our workforce receive training on these matters within a reasonable time after they have joined the workforce. It is also the policy of Jersey Physical Therapy to provide training should any policy or procedure related to the Red Flag Rule materially change. This training will be provided within a reasonable time after the policy or procedure materially changes. Furthermore, it is the policy of Jersey Physical Therapy that training will be documented, indicating participants, date and subject matter

Procedures

- I. **Identify Red Flags.** In the course of caring for patients, Jersey Physical Therapy may encounter inconsistent or suspicious documents, information or activity that may signal identity theft. Jersey Physical Therapy identifies the following as potential red flags, and this policy includes procedures describing how to detect and respond to these red flags below:
 1. A complaint or question from a patient based on the patients receipt of:
 - A bill for another individual;
 - A bill for product or service that the patient denies receiving
 - A bill from a health care provider that the patient never patronized; or
 - A notice of insurance benefits (or explanation of benefits) for health care services never received
 2. Records showing medical treatment that is inconsistent with a physical examination or with a medical history as reported by the patient.
 3. A complaint or question from a patient about the receipt of a collection notice from a bill collector.

4. A patient or health insurer report that coverage for legitimate hospital stays is denied because insurance benefits have been depleted or a lifetime cap has been reached.
5. A complaint or question from a patient about information added to a credit report by a health care provider or health insurer.
6. A dispute of a bill by a patient who claims to be the victim of any type of identity theft.
7. A patient who has an insurance number but never produces an insurance card or other physical documentation of insurance.
8. A notice or inquiry from an insurance fraud investigator for a private health insurer or law enforcement agency, including but not limited to Medicare or Medicaid fraud agency.

II. **Detect Red Flags.** Jersey Physical Therapy staff will be alert for discrepancies in documents and patient information that suggest risk of identity theft or fraud. Jersey Physical Therapy will verify patient identity, address, and insurance coverage at the time of patient registration/check-in.

Procedure

1. When a patient calls to request an appointment, the patient will be asked to bring the following at the time of the appointment:
 - Driver's License or other photo ID
 - Current health insurance card; and
 - Utility bills or other correspondence showing current residence if the photo ID does not show the patients current address. If the patient is a minor, the patient's parent or guardian should bring the information listed above.
2. When the patient arrives for the appointment, the patient will be asked to produce the information listed above. This requirement may be waived for patients who have visited the practice within the last six months.
3. If the patient has not completed the registration form within the last six months, registration staff will verify current information on file and, if appropriate, update the information.
4. Staff should be alert for the possibility of identity theft in the following situations:
 - The photograph on a driver's license or other photo ID submitted by the patient does not resemble the patient.
 - The patient submits a driver's license, insurance card, or other identifying information that appears to have been altered or forged.
 - Information on one form of identification the patient submitted is inconsistent with information on another form or identification or with information already in the patient's records.]
 - An address of telephone number is discovered to be incorrect, non-existent, or fictitious.
 - The patient fails to provide identifying information or documents.
 - The patient's signature does not match a signature in the practice's records.
 - The social security number or other identifying information the patient provided is the same as the identifying information in the practice's records provided by another individual, or the Social Security number is invalid.

III. **Respond to Red Flags.** If an employee of Jersey Physical Therapy detects fraudulent activity or if a patient claims to be a victim of identity theft, Jersey Physical Therapy will respond to and investigate the situation. If the fraudulent activity involves protect health information (PHI) covered under the HIPAA security standards, Jersey Physical Therapy will also apply its existing HIPAA security policies and procedures to the response.

Procedure

If potentially fraudulent activity (a red flag) is detected by an employee of Jersey Physical Therapy:

1. The employee should gather all documentation and report the incident to his or her immediate supervisor (or designated compliance officer/private official, if acceptable).
2. The supervisor (or designated compliance officer/ private official, if acceptable) will determine whether the activity is fraudulent or authentic.
3. If the activity is determined to be fraudulent, then Jersey Physical Therapy should take immediate action. Actions may include:
 - Cancel the transaction;

- Notify appropriate law enforcement;
- Notify the affected patient;
- Notify affected physician(s); and
- Assess impact to practice.

If a patient claims to be a victim of identity theft:

1. The patient should be encouraged to file a police report for identity theft if he/she has not already done so.
2. The patient should be encouraged to complete the ID Theft Affidavit developed by the FTC, along with supporting documentation.
3. Jersey Physical Therapy will compare the patient's documentation with personal information in the practice's records.
4. If following investigation, it appears that the patient has been a victim of identity theft; Jersey Physical Therapy will promptly consider what further remedial act/notifications may be needed under the circumstances.
5. The physician will review the affected patient's medical record to confirm whether documentation was made in the patient's medical record that resulted in inaccurate information in that record. If inaccuracies due to identity theft exist, a notation should be made in the record to indicate identity theft.
6. The practice medical records staff will determine whether any other records and/or ancillary service providers are linked to inaccurate information. Any additional files containing information relevant to identity theft will be removed and appropriate action taken. The patient is responsible for contacting ancillary service providers.
7. If following investigation, it does not appear that the patient has been a victim of identity theft, Jersey Physical Therapy will take whatever action is deemed appropriate.
